2020 is an unprecedented year in the lives of our Scouting families. As we look ahead, the most important goal is keeping everyone safe and healthy at all times.

This year’s popcorn sale will look and feel different for many of us. But your Council and CAMP MASTERS are dedicated to supporting you every step of the way. We are continually evaluating the current environment and recommendations with the best interests of everyone in mind. As the popcorn sale nears, we ask that you reach out to your Council regarding best practices and local safety guidelines.

As our Country takes the beginning steps towards recovery, we must continue moving forward as well. We need a united mindset focused on adaptability and resilience to keep the popcorn sale a vital part of funding your Scouting program in the coming year.

We hope this guidebook provides a step-by-step approach to setting your Unit up for popcorn sale success.

In 2020, CAMP MASTERS is providing all Councils and Units with new training and marketing resources. Some information on these resources is included in this guide. And you’ll gain access to others over the coming months leading up to the sale.

However, if there is anything you need to help fuel your popcorn success, please don’t hesitate to reach out. Give us a call at 800.624.2060 or email our great team for assistance: customerservice@campmasters.org.

We are fully invested in your popcorn success!

Sincerely,
Wilfred E. Sieg, Jr.
President
